SEQUENCING

Sasha Gets a Puppy

Sasha really, really wants to get a puppy. Her mom said that if she learns to take care of one then they will go to the shelter together and adopt a puppy. So Sasha then got a job as a dog-walker so she could get some practice working with puppies. She would go to her neighbors houses every day, and walk their dogs to the dog park. She would get them water, play with them and brush their fur before taking them back to their owners. After a few weeks Sasha had learned a lot about caring for puppies! Her mom took her to the local dog shelter, and Sasha adopted her very own puppy!

Instructions: Put the story events in the correct water.

6 Sasha has learned a lot about caring for a puppy.

3 Sasha got a job a dog-walker.

7 Sasha went to the shelter, and adopted a puppy.

4 Sasha walked the dogs to the dog park.
